Education

Stevens Institute of Technology August 2025 – May 2026
Master of Science in Computer Science Hoboken, NJ

- Cumulative GPA: 3.903/4.0
- Relevant Coursework: DevSecOps, Advanced Programming in Unix Env., GPU Programming, OSS Engineering

Stevens Institute of Technology August 2021 – May 2025
Bachelor of Science in Computer Science Hoboken, NJ

- Cumulative GPA: 3.947/4.0 | Graduated *summa cum laude*, Computer Science Departmental Award, Pinnacle Scholar, Dean's List, Edwin A. Stevens Scholarship, Upsilon Pi Epsilon Computer Science Honors Society
- Relevant Coursework: Web Programming, Systems Administration, Human-Computer Interaction, Agile Development Processes, Mobile Systems and Applications, Natural Language Processing, Computer Architecture

Work Experience

Embedded Software Engineering Intern August 2026 – Present
Persistent Systems New York, NY

- Creating a pipeline to allow automatic firmware flashing to hardware, including testing and quality control

Course Assistant January 2023 – May 2026
Stevens Institute of Technology Hoboken, NJ

- Taught for Web Programming II, Theory of Computation, Operating Systems, Algorithms, and Data Structures
- Assisted in the above courses for 7 semesters straight, helping 4 professors and hundreds of students
- Creating automated grading tools saving over 5 hours of work per assignment for each teaching assistant
- Organized course Canvases, uploaded materials, modernized homework documents, and created review slides

Frontend Developer Intern May 2025 – September 2025
Life Skills Software Remote

- Led the redesign of a legacy website, refactoring both the user experience and tech stack
- Created mockups in Figma, performed testing, and implemented a new frontend design for hundreds of users

Projects

Terrain Generator (loim.dev/projects/terrain) January 2026 – Present

- GPU-accelerated procedural terrain generator & renderer using Rust, wgpu, and egui, compiling to wasm for web

Passaporto September 2025 – December 2025

- Full-stack web application for users to collect and trade "trading cards" of nearby NJ Transit and MTA trains
- Set up continuous integration and deployment to AWS EC2 using GitHub Actions and Docker containers
- Lead frontend development of the main site and deployed a dashboard to monitor service traffic & container health

a11y? September 2024 – December 2024

- Designed and architected a Next.js website for users to rate different accessibility aspects of local establishments

Extracurriculars

Organizer, Tech Team & Moderation, Stevens QuackHacks March 2025 – March 2026
Vice President, Stevens Linux Users Group August 2024 – May 2025
Publicity Manager, Stevens A Cappella March 2024 – May 2025
President, Upsilon Pi Epsilon Honor Society May 2023 – May 2025

Skills & Interests

Programming: Rust, TypeScript/JavaScript, HTML, CSS, SvelteKit, React, Next.js, Python, C, C++, Bash, Java, R

Interests: Singing, photography, gaming, modeling, graphic design, UI/UX design, open source, helping others
